

INFLATABLE FENDERS

MAXISTOW INFLATABLE FENDERS

Fendequip Maxistow Fenders are the perfect choice for small to medium size yachts and powerboats. They are light and easy to handle when inflated and easy to stow in a small locker. Made from high grade polyester fabric with an abrasion resistant surface, they are hard wearing that will ensure a long and trouble-free life. Should you have a puncture, they are fully repairable and a repair kit can be purchased separately. The attachment points are stainless steel "D" rings on both ends, securely fastened to a layered backing plate.

Maxistow can be quickly inflated and ready to use in minutes with a standard foot pump, electric pump or onboard airline. They take up minimal storage space and are ideal for yachts, motor cruisers and super yachts.

They combine light weight with compact dimensions when folded and are available in grey.

Available in the following sizes:

- MSF1** Maxistow Fender - L: 75 x Dia: 28 cm
- MSF2** Maxistow Fender - L: 104 x Dia: 32 cm
- MSF3** Maxistow Fender - L: 132 x Dia: 42 cm
- MSF4** Maxistow Fender - L: 105 x Dia: 45 cm
- MSF5** Maxistow Fender - L: 150 x Dia: 42 cm
- MSF6** Maxistow Fender - L: 150 x Dia: 60 cm
- MSF7** Maxistow Fender - L: 200 x Dia: 60 cm

Length of Fender is actual body length, excluding domed ends, the domed ends can add approximately 5-10% to overall length.
